[Portfolio](#)

Junior Full-Stack Developer with a passion for building and deploying scalable applications. Skilled in React, Node.js, Python, and cloud infrastructure, with hands-on experience managing end-to-end development and self-hosting applications. Thrives in dynamic environments, optimizing workflows through automation and efficient system design.

## EXPERIENCE

### Full-Stack Developer - [TAVERN](#) (Jan 2023 – Present)

- Redesigned a key user interface component, making navigation more intuitive and leading to a 15% increase in user engagement.
- Implemented lazy loading and image optimization, reducing page bloat and improving mobile performance by 25%.

### AV/IT Specialist - [Ultimate Technologies Group](#) (Apr 2021 – Present)

- Deployed and troubleshooted networked AV solutions, ensuring proper integration with corporate IT infrastructure and resolving IP conflicts.
- Upgraded AV-over-IP solutions, improving video streaming quality and reducing latency in global town halls and executive meetings.

### A/V Coordinator - New York, NY, [Indeed](#). Jan 2019 - 2022

- Led end-to-end A/V logistics for high-profile internal and external events, ensuring seamless execution for executive meetings, town halls, and client presentations.
- Coordinated with IT and facilities teams to implement robust A/V infrastructure, including networked control systems and automated scheduling solutions.

## EDUCATION

Code Fellows - Seattle, WA

Certificate - Advanced Software Development in Full-Stack - 2024.

CUNY - John Jay, New York, NY

Bachelor's in Computer Science

## TECHNICAL SKILLS

**Languages:** Bash, Powershell, JavaScript, Next.js Python, MySQL, HTML5, CSS3.

**Skills and Tools:** Node.js, React, React Native, Git, GitHub, VS Code, Docker, MongoDB, Netlify, Linux, Ollama API, Apache2
